TO WHOM IT MAY CONCERN

Dear Sir/Madam,

RECOMMENDATION FOR JACKSON REREU NJAPIT (ID no. 12979779)

Jackson R. Njapit is a member of Koyiaki Location, Mara division of Narok South district. He is married to Sintoyia and they have three children. He is among the first to be trained in healthcare provision in the community and since receiving his training in 1998 has been a real asset in providing healthcare in this area where healthcare institutions are far between.

He is the first person to introduce safe male circumcision and has spearheaded campaigns to stop Female Genital Mutilation (FGM) in this area.

He has dedicated his time and effort to saving lives, created awareness on cleanliness and carried out campaigns to provide information on HIV/AIDS to a community that is still ignorant of the impacts of the disease.

His interest to venture into flying will go along way in involving the Maasai community in tourism activities for which they are still underrepresented. In addition, his vision to start a balloon flying school will enable many Kenyans benefit from his training. The community of Koyiaki supports him in this venture and I do not hesitate to recommend him for the assistance that he needs to attain his dream.

Thank you.

Yours Sincerely,

Kadipo Ole Naurori

Chief- Koyiaki Location
